* MARITIME TRAINING NOW AVAILABLE FOR DEVELOPING COUNTRIES

The World Maritime University was inaugurated this summer in Sweden to provide high-level training for those in developing nations where the opportunity to create a national fleet is not available. For many countries, a fleet would greatly enhance a growing overseas trade. The university will be partially supported by the UN Development Programme and member states of the Int'l. Maritime Organization, who view the university as a way of maintaining and improving safety standards for world shipping in the future. Inquire to the World Maritime Univ., Cita Dell SV 29, 21120 Malmo, Sweden.
